

Kemet

Overview of Kemet International Limited

Established in 1938, Kemet International Limited is at the forefront of precision lapping and polishing technology, using Diamond Superabrasives, which are manufactured in house to ISO 9001:2000 quality standards and are widely used throughout the world. We offer innovative solutions to operations which demand precision finish and close tolerance.

Our expertise is available to you through our in-house technical specialists, a team of 7 Technical Representatives in the UK, and an extensive network of overseas Subsidiary Companies and Distributors.

Our process Laboratories are fully equipped with the latest range of Lapping Machines, Ultrasonic Cleaners, Mould Polishing and Metallographic Equipment to carry out tests on customers' samples. In addition, our team of industrial chemists are able to manufacture bespoke diamond polishing compounds and suspension for your specific needs.
